Dear District Staff:

The Baldwinsville Central School District endeavors to prepare its students for jobs, opportunities and technologies that do not yet exist, in order that they may help solve problems that have not yet arisen. In order to prepare them for life, learning and leadership, schools must equip students with the capacity to acquire new skills and new knowledge throughout their lives. The insights of students and parents, as well as educational, business and professional communities will be valuable resources for the district as we educate a new generation of citizens.

The district is beginning the process of updating the academic component of its Long Range Plan. In February, we will hold three forums to draw upon the collective wisdom of our community and its many resources. These forums will be opportunities for you to comment upon and offer insight as it pertains to the educational needs of our students. We will be meeting on Wednesday, February 3rd, 10th, and 24th, in the cafeteria of C.W. Baker High School, from 6:30 p.m. until 8:30 p.m. I hope you will be able to join us on one of the dates listed above.

At the evening forums, we will be discussing five focus questions to gather input from the varied constituents. Because I know it is sometimes difficult for you to attend evening forums and I want to be sure you are given the opportunity to provide us with input prior to the BCEPT committee developing the long range academic component of our District Plan, during the second week of February, I will put out the same focus questions to all staff members.

Your participation in the dialogue about the academic component of the district's Long Range Plan would be greatly appreciated. If you are able to attend a forum, please RSVP to Kelly Cary at kcary@bville.org or 315-638-6180. Please provide her with the date you will be attending.

Sincerely,

Jeanne M. Dangle
Superintendent of Schools
